Bringing A Whole New Dimension To The World Of Construction
Akoya by Damac

All the finest elements of quintessential Beverly Hills living spring to life at Akoya by Damac. The gated community of 446 serviced luxury villas is inspired by the most endearing cinematic elements.

Client: Damac Crescent Properties LLC
Over the last two years, we have successfully created a cohesive construction entity with a solid financial stand and a strong competitive edge. As an Abu Dhabi-based company, we are committed to the promotion of local businesses and the community, and the majority of our work is done in the capital. As a direct result of our position on promoting local businesses, we also hope to see the group’s collective capabilities and extensive local construction experience bring more business to the UAE-based suppliers / vendors we work with on a regular basis.

Trojan General Contracting is currently involved in the construction of educational facilities, medical facilities, luxury resorts, business hotels, mass housing development (complete city), Government buildings and Industrial projects in UAE & across key markets including Afghanistan, Jordan, Kurdistan, Morocco, Chechnya and the Seychelles. Our goal is to expand our remit to bring our services to more countries and more industries across the world.

As we grow and expand our services, we stay firm in our dedication to maintaining, training and growing a diverse, multi-national workforce. We also adhere to the highest standards of health and safety and environmental regulations, and comply with ISO 9001, 14001, OHSAS 18001 and all relevant HSE legislative requirements, as well as green building regulations to curtail environmental impact.

In every project that we pursue or undertake, we are steadfast in our promise that we can do it all; at Trojan Holding, we believe that our collective expertise and capabilities through our specialized companies enables us to provide a turnkey solution that adds value at every level - for the client, the project, our people, and the community.

Ain Al Faydha Government Villas for Al Qudra Real Estate
Since its launch in 2009 we executed a diverse and far-reaching portfolio of major construction projects in all sectors of real estate and infrastructure. Today, the company encompasses an array of plants and state-of-the-art equipment as well as a team of more than 5,200 efficient experts and labourers working to get to the heart of your needs.

Our clients recognise our committed service that pays attention to the intricate details of their requests as we constantly work to the highest quality, on schedule and within budget. In meeting these objectives we consistently place the emphasis on excellence, health, safety and the environment. Stringent procedures at each step of every job is guaranteed as we continue our drive to improve performance and exceed client expectations.

We are a company that started from the top by choosing professionally skilled people with high qualifications in order to produce the best management and working team and carry out projects and jobs of the highest quality. We use programs of exceptional standards to reach our target during a short timeline but with quality work that would last a lifetime.

Our potential, ambition and determination have no boundaries.

ENVIRONMENT, HEALTH & SAFETY POLICY

Trojan General Contracting is committed to achieve the highest practical standards of health, safety and environmental protection in all spheres of its operations. This concept is at the heart of the company’s philosophy. The company requires all levels of staff throughout the organization to be aware of and implement its safety procedures.

Trojan General Contracting’s management actively encourages the implementation and continuous review of safety standards. Whilst safety on site is the prime consideration. We believe that successful safety procedures must embrace all of the company’s activities including its office, material and plant procurement operation. It is our belief that good Health, Safety and environmental protection procedures can and should also improve construction in terms of both efficiency and value.

Trojan General Contracting also considers that its Health, Safety and Environmental Protection philosophy must be dynamic and not static. The preparation and implementation of procedures is the beginning, not the end. These procedures should be communicated, reiterated, regularly reviewed and developed to suit changing conditions, standards and technology.

Trojan General Contracting is dedicated to the pursuit of excellence, and firmly believes that Health, Safety and Environmental Protection Procedures are an intrinsic part of this philosophy.

Quality Policy

It is the policy of the Trojan General Contracting LLC to provide consistent levels of work performance that meet or exceed the quality requirements of the customer including statutory and regulatory requirements. We are committed to provide continuous effort to identify and eliminate any defects or discrepancy and continually improving the effectiveness of quality management system by:

b. Identify and control the process and product effectively.

c. Ensure the availability of human resources who are capable of meeting the challenges and who fully accepting the responsibilities.

d. Monitor, measure and analyze the progress.

e. Minimize the number of defects /complaints.

f. Take action to achieve the targets and continually improve the system.

The quality policy is communicated and understood within the company and is available to all employees who have a direct bearing on quality within the construction. The policy and performance is reviewed for its continuing suitability and accordingly revised when required.
Trojan Holding acts as the construction arm of the Royal Group and comprises several industry-leading companies: Trojan General Contracting (TGC), specialising in mass housing projects; National Projects & Construction (NPC), specialising in high-rise and infrastructure projects; Royal Advance Electro-Mechanical; Reem Emirates Aluminium & Glass Factory; Hi-Tech Precast & Block Works Factory; and Al Maha Modular Steel Structures.

Diversity has always been at the heart of Trojan Holding’s vision, and by pooling the resources of these specialist companies it can offer discerning clients a single and cohesive construction entity that can deliver turnkey projects to a pre-agreed deadline and budget.

Today, Trojan Holding is considered one of the fastest-growing construction firms in the UAE, with operations in Afghanistan, Iraq, Jordan, Morocoo, Russia, and the Seychelles. Of course, such dramatic growth has meant significant investment, with the group having acquired a wide array of plant and equipment worth in excess of AED 200 million; it has also managing to attract and retain approximately 15,000 highly qualified personnel and labour.
